

# WILLOW WINDS SUPPORT NETWORK

1<sup>st</sup> Quarter (January, February, March, 2025 )

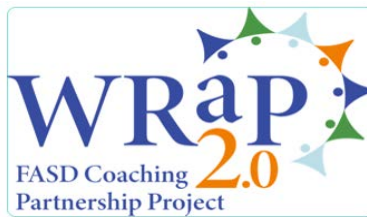

Attention Schools!!!

The WRaP 2.0 project (Wellness, Resiliency and Partnership) providing Fetal Alcohol Spectrum Disorder, FASD, and Brain Domain Challenges professional development and instructional coaching is over December 31, 2025.

For those schools who have not had Angela Kemble, the WRaP 2.0 Instructional Coach, in to do the four modules of professional development and/or instructional coaching with staff please reach out at 780-305-8827 or [angelak@wwsn.ca](mailto:angelak@wwsn.ca)

Schools who have utilised this valuable service and would like Angela to come back for more professional development, case management, transition planning, strategies or coaching please reach out.

We are paid to implement this project by the Ministry of Education so there is no cost to your schools. Have a look at your calendar and book Angela for a half or full PD day. She can also do lunch and learns and shorter sessions for coaching. [www.wrap2fasd.org](http://www.wrap2fasd.org)

Thank you Robert Teglar Trust for your grant to send children and youth with FASD to Summer Camp. We already have eight registrants for Lakeland FASD Summer Camp.

Executive Director, Angela Kemble, attending the Autism Society Conference January 2025.

Contract Agency Hinton Employment and Learning Centre provides the concession at the Hinton FCSS Family Dance. Over 250 Mocktails served, Shirley Temples and Virgin Pina Coladas. Thank you Natalia and Kylie for representing!

## Success Stories

1. Summer Camp - The client attended the Lake Land FASD camp in Cold Lake during the summer of 2024. He has never been away from his parents at all. He was a little apprehensive about going. He enjoyed the camp so much when he came home. He said to his Mom I am getting older and can only go to camp a couple more times before I cannot go again. This is truly a success story. The funder Angela was told about this story and found a camp for young adults to attend for FASD and the client is very happy about this. "
2. In Reach - I have a client who is doing really well, he has come out of treatment and has been doing exceptionally well in the community. He is going to school to upgrade for the job he would like. He spoke with his probation officer and is doing so well they approved him to go to B.C. with his son and his Girlfriend. He has been sober for six months, and has been working really hard to better his life.
3. FASD Mentorship - Client has been Taekwondo for 13 years, has been taking classes since he was 7 years old. This year he is proud to be apart of the TEAM CANADA TAEKWONDO club. and went to Puebla, Mexico to compete internationally and won 2 GOLD metals , One for Poomsae, and one for Sparring. Quote from Client " You can do anything , life is long enough to do everything just have to have a great mindset"
4. PCAP - Participant has been living with a roommate, and renting a spare room , mentor supported client in getting Aish application finished. Client was able to get Aish and all tax papers up to date ( utilizing community programs such as FCSS tax support) Client then found a place to rent as mentor had been supporting her looking for an apartment. Client was able to secure her first apartment. Ever!!

**Transitions to Adulthood** event at Harry Collinge High School, Hinton

WWSN Clinics for 2024/2025 Year  
**32 Pediatric Clinics**  
and the whopping
