NOT A NUMBER

Kayla Kivi Brown has taken the Train the Trainer course in order to certify you all to implement the **Not a Number** program. This is a prevention program on Sexual Exploitation and Human Trafficking geared toward youth, adults with FASD/IDD and newcomers and immigrants. These are some of the most vulnerable populations affected by these type of crimes. Please reach out to have some of your staff trained to implement this program as a part of your regular curriculum. This is great for organizations that work with these populations and higher grades in schools. For more information or to book: Angela Kemble, angelak@wwsn.ca 780-305-8827 website love146.org
