NOT A NUMBER

Train the Trainer Workshops

Saskatoon - April 27, 28 & 29, 2026

<https://www.eventbrite.ca/e/1979913953934?aff=oddtcreator>

Winnipeg – May 25, 26 & 27, 2026

<https://www.eventbrite.ca/e/not-a-number-train-the-trainer-tickets-1492273814149?aff=oddtcreator>

WWSN Executive Director, EDs and supervisors of contract agencies Taproot, Hinton Employment and Learning Place and Healthy Families Healthy Futures will be trained in Violence Threat Risk Assessment on May 12 & 13, 2026 in Edmonton to become members of school and community VTRA teams. We will build valuable FASD and brain domain capacity to the table.

Thank you: Calgary Foundation for your grant of \$10,000 supporting the Scanning Pen project; Rotary Club of St Albert for your \$1000 support of our Not a Number program; and Muttart Foundation for supporting our staff Self Care workshop.

Spring Workshop

Everyone is struggling more than ever right now with federal/provincial economic instability, recent events occurring in our Alberta education sector, additional hardships for our clients financially and increased societal stigma for our newcomers and immigrants. We advocate self-care constantly to our clients but we at WWSN realize we are not so good at it for ourselves. We often don't recognize the signs of when we personally need some self care or how to meet those needs in a healthy, impactful way.

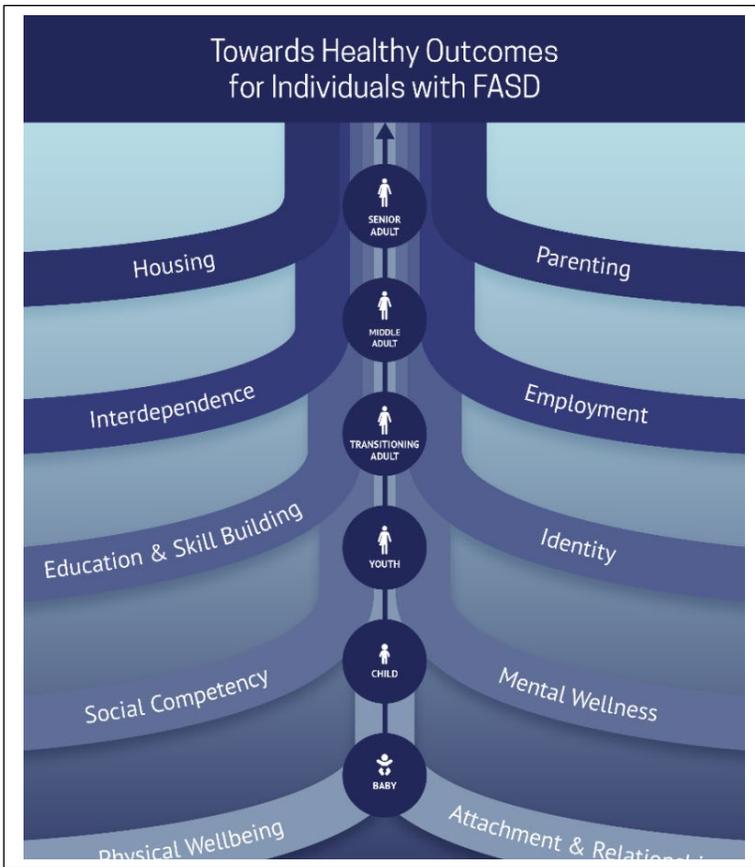

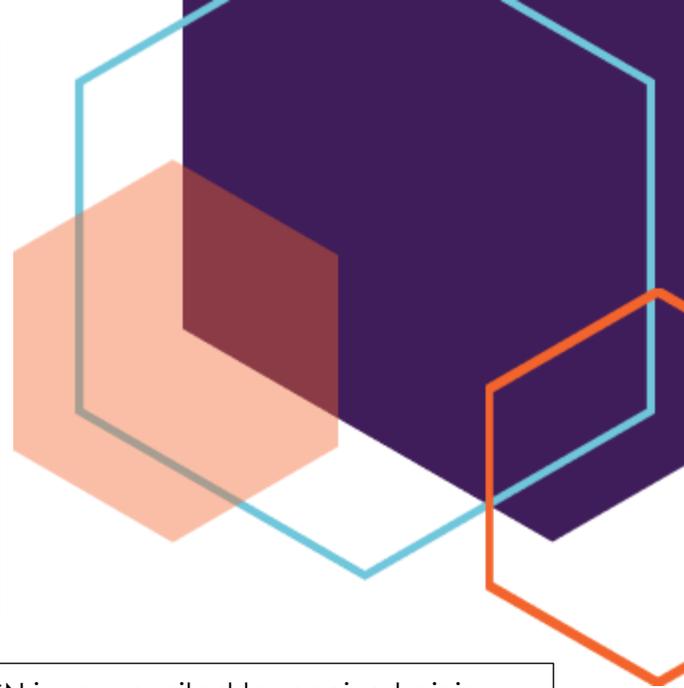

WWSN is hosting a Worker Self Care retreat for our Spring Workshop in June of 2026 at Star of the North Retreat Centre. Wholesome Psychology has created a personal agenda to meet our unique needs. We sincerely hope the outcomes are improved self care for all participants and information and strategies we can pass on to our clients.

WWSN is honored and privileged to be invited to join the conference committee for the **Access to Justice Through an Indigenous Lens** supported by the Alberta Courts Indigenous Justice Strategy. At our very first meeting WWSN asked that FASD and Brain Domain Challenges as well as transportation concerns for rural clients to court and probation meetings be considered topics for the next conference.

THE ALBERTA COURT OF JUSTICE

WWSN is very excited to receive training on Dr. Jacqueline Pei's Towards Healthy Outcomes. CANFASD and the University of Alberta have created a presentation that Prevention Conversation facilitators will be adding to their repertoire in April 2026.

Please reach out to us at angelak@wsn.ca if you would like us to present this valuable, evidenced based, best practice model for working with individuals with Fetal Alcohol Spectrum Disorder and Brain Domain Challenges. This includes schools in our network region.

In 2026 WWSN is presenting at conferences for:

- ALIGN in Edmonton "FASD Foundations"
- John Howard Society's Alberta Criminal Justice Symposium, In Edmonton "In Reach by WWSN"
- FASD United, Seattle, Washington "Not a Number"
